Forecast For Southwest England
Issued by Met Office Exeter
at 0400 on Tuesday 13 Jul 2021

++ Valid for broadcast between 0600 and 1800

Headline:
A dry start. Isolated showers later, starting in the east.

Today:
Dry through the morning for most, with showers developing in the northeast of the region later. Elsewhere seeing showers in the afternoon, excluding west Cornwall. Patchy cloud with plenty of sunshine, feeling warmer than yesterday. Maximum temperature 24 deg C (75 deg F).

Tonight:
Any remaining showers in the east of the region clear through the evening, leaving a dry and settled night with little to no cloud. Fog likely developing across the moors. Minimum temperature 12 deg C (54 deg F).

Wednesday:
A dry start, with any rural fog quickly lifting. Dry and bright through the day, with just a few isolated showers in the east later. Feeling warm in the sunshine. Maximum temperature 24 deg C (75 deg F).

Outlook for Thursday to Saturday:
Fairly cloudy on Thursday, with some sunny spells. Largely dry, with just some passing light afternoon showers. Dry and bright Friday and Saturday. Feeling warmer than recently.
